Subject: RE: Shipment for Studies

DSS: No

Can you please confirm the correct shipping address for the cigarettes?

I will be able to advise you of the delivery date as soon as it is provided to me. My target is to have the inventory to the PHX site no later than October 13 (giving you a week for conditioning and repackaging).

Thanks,
Valerie

Importance: High
Sensitivity: Confidential

I had not heard back from you and I wanted to double check that the first communication was received and that there was no confusion. I left a voice message for you this morning. One clarification that probably should be made is if the 42 cases you are referring to are 6M or 12M cases. When I said we could place approximately 22 cases in our humidor, I am referring to the 6M cases as that is how we receive them from the local distributor after tax stamping. I also asked about the rotation of stock into the humidor if all 42 cases are delivered at once, or if the local distributor has a humidor or environmentally controlled spot that they could hold the balance of the shipment. If not, shipping all 42 cases to us and having us rotate stock into the humidor as it was used would be the better option. Please let me know when I would expect shipment and what the plan is.

Lori;
Kim Prechal provided me with your name as the contact point for the
pharmacy
at the PHX site.

I am in the process of initiating the shipment of study product to the
PHX
site for the clinical conduct of the MARL/01/03 and MARL/02/03
studies.
Because we will need to coordinate shipment of this product through a
wholesaler, we'd like to minimize the number of shipments to PHX. I
would
like to send a total of 42 cases of cigarettes to PHX in the first
shipment,
but I am uncertain of whether your site could accommodate such a
quantity.
Could you please advise (no later than this Wednesday) what the
maximum
quantity of cigarettes is that you would be able to store (at one
time) for
these studies?

Once I have that information I can determine how many shipments we
need to
be planning for.

If you have questions, please feel free to contact me.

Thanks,
Valerie
